EEEEEEEDDDDDDDDDDDDDYYYYYYYYYYYYYYYY

WWWRRRRRRRRYYYYYYYYYYYYYYYY Sorry. Got too excited. EDIT: Alright, I've finally calmed down. Basically, this DLC contains no story or what-so-ever. Just Edy. And a weapon. And a decal. (After clearing a mission with not much context.) I was hoping there is more to it, like in the previous VC games where Edy has somewhat interesting DLC missions. While I do appreciate seeing Edy again. I WANT MORE EDY!!! WHERE IS THE STORY. WHERE IS MI ANIMUUU---!!! W-WH- \*incoherent screaming\* I guess I'll forgive them for now for filling one whole page of the journal with a portrait of Edy. But I'm watching you. You hear me. I'M WATCHING YOU.. It's good that they are giving this away instead of selling it. Not worth any money, but a good mission for free..

I'M WATCHING YOU.. One skirmish for my least favourite Squad 7 member. If this was Marina's / Lynn's advance ops it would have been amazing.. With this DLC you are getting 1 extra mission, 1 non canon character from VC 1 and 1 weapon (which is outclassed after third story mission). Its a fun little addition and it only add value to other DLCs since you get this one for free when you buy at least one DLC for the main game.. EEEEEEEEDDDDDDDDDDDDDYYYYYYYYYYYYYYYYYYYY
